

Read This About the City and APS Fields and the New Mexico Soccer Tournament Complex!!!

We use certain city parks under a contractual agreement with the city. Our agreement covers the use of certain school fields, also. We are also contractual users of the New Mexico Soccer Tournament Complex.

First, we place toilets at Arroyo Del Oso, St. Pius and NMSTC. They are placed there for a good reason. We would prefer you actually use them for their intended purpose, as opposed to a more natural approach. We have the Arroyo Del Oso and St. Pius units serviced once a week (on Friday) and the NMSTC units serviced twice a week. One can never tell what additional people may be around using said units, so we would suggest throwing a roll of toilet paper in your bag just in case.

It is against the law to bring alcohol to any city park other than Bullhead and Los Altos. It is against the law to bring a glass container to any park. In the case of the NMSTC, alcohol in any form is prohibited, as you're on tribal property.

Arroyo Del Oso has water fountains. None of the other fields do, so either bring your own or drink the referee's while the game is going on.

We actually pay for other people to pick up your trash at the city fields. This is fairly embarrassing, although a good fund raiser for local youth soccer clubs. If the people who attend the games, who happen to be the same people who read this, would pick up the trash, we wouldn't have to do this. We can only conclude that you don't mind having your fees increased to have someone handle this for you. One minor step that you can take to keep your fees from going up is to simply pick up your trash.

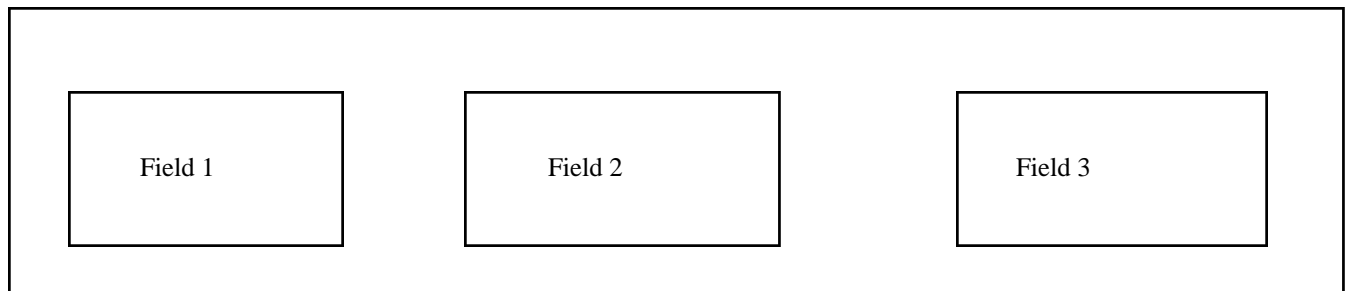

Please note this change: every week, the field manager at the NMSTC will survey the team areas after each game and report back on what teams left trash. We'll send your team a nice little \$25 bill for that, as we get to pay extra for trash pickup at the complex. As we can determine exactly who left the trash, we'll use a direct funding approach at that location.

When it comes to practice fields, we do not have enough fields to take care of everyone's needs. Therefore, you're going to be squeezed when it comes to finding space. You get to share. Don't call the League to let us know someone is playing on "your" field. The youth and adult leagues are adding at least a hundred teams a year, and no one is adding parks. If you are disturbed by that, contact your city councilor or county commissioner. In the meantime, you get to share.

Do not practice in the goalmouth. Do not play full field scrimmages. Do not get in a fight with someone from another organization over the field. If that situation arises, call the League and we will take it up with the city and have a park monitor dispatched to deal with the situation. If a park monitor asks you who your team is, please treat the person with the same respect with which you expect to be treated. They have a job to do, too. And if you aren't set up to be on that field, you'll be asked to leave and get your reservation form in to the League. Don't say we didn't warn you.

Location of ASL Fields

Arroyo Del Oso-One block west of the intersection of Wyoming and Spain NE. Field 1 is the east field near the entrance. Field 4 is the far west field. It has toilets.

St. Pius is at north Coors and St. Joseph. Do not park on Coors under the trees or you risk getting a parking ticket from Albuquerque's finest. That's what those signs on the road say. Toilets are placed at Pius. There is no water supply.

New Mexico Soccer Tournament Complex - From Albuquerque, take I-25 north, take the Bernalillo Exit 242 for Highway 44 and go west. When you get to the stop light at Road 528, turn north and the new road will take you right up to the gate. The road at the Star Casino is not being used for the complex any more. Go about one mile and it's on your left. Pick up your trash. Don't dump all your money at the casino or you can't afford to play next year. If you hit the jackpot at the casino, remember your friendly soccer league. Yes toilets. No water. Please don't drink out of the irrigation reservoir. The funny taste in the water helps keep the fields green, if you catch our drift.

Ubicación de los Campos de ASL

Arroyo del Oso: a una calle al oeste de la intersección de Wyoming con Spain NE. El Campo 1 se encuentra al este, cerca de la entrada. El Campo 4 es el que está al oeste, más lejos. Posee excusados.

St. Pius se encuentra en north Coors y St. Joseph. No deje su automóvil bajo los árboles de la calle Coors; podría obtener una multa de estacionamiento (eso es lo que indican las señales que hay en la calle. En Pius encontrará baños. No hay agua potable.

Complejo para Torneos de Fútbol Farmer's: desde Albuquerque tome la I-25 norte, tome la salida 242 a Bernalillo hacia la Autopista 44 y tome hacia el oeste. Cuando llegue al semáforo en la carretera 528, gire hacia el norte y la nueva carretera lo llevará directo a la entrada. Conduzca aproximadamente una milla y lo encontrará a su izquierda. La carretera del Star Casino ya no se utiliza para llegar al complejo. Recoja la basura que genere. No deje todo su dinero en el casino o no podrá pagar para jugar el año que viene. Si acierta el premio mayor en el casino, recuerde a su liga de fútbol amiga. Excusados sí. Agua potable no. Por favor no beba el agua del reservorio de irrigación. El extraño sabor del agua es lo que ayuda a mantener los campos verdes... ¿entiende lo que queremos decir?
